Richard P. Baker
Department of Environmental Protection
Division of Licensing & Enforcement
Bureau of Oil & Hazardous Materials Control
State House Station 17
Augusta 04333

Dear Mr. Baker

In reference to your letter of August 31, 1984 regarding two additional violations noted in the EPA/DEP inspection of March 28, 1984.

An unlabeled collection drum of Hazardous Waste was not labeled in Building #1. (40 CRT Part 262.34(a)(2)) This drum is now labeled and any new drums are now labeled by the Hazardous Waste Manager.

In regards to the start of the accumulation periods. We have operated with understanding, as expressed by your office, that the accumulation period starts when 200 Kilograms of material is accumulated. Mr. Michel and Mr. Wing of the EPA noted a more stringent interpretation. This difference in interpretation has caused some concern. Please advise, as to the interpretation we should comply with.

If there are any questions, please notify me at any time.

Sincerely

FIBER MATERIALS, INC.

David R. Bergeron
Hazardous Waste Manager
